## SUMMARY

Information Technology engineering graduate with hands-on experience building web and mobile applications, REST API integrations, and robust backend error handling. Proficient in React Native, JavaScript, and database systems, with strong technical communication skills focused on application reliability, bug verification, and functional quality.

## TECHNICAL SKILLS

**Mobile & Web Development:** React Native, React, Next.js, Node.js, Express.js, REST APIs

**Languages & Databases:** JavaScript, TypeScript, SQL, Python, Java, Firebase, MySQL

**Testing & Tools:** Postman, Git, GitHub, Vercel, VS Code

**Systems & Documentation:** Microsoft Office, Linux, Figma, Cisco Packet Tracer

## EXPERIENCE

### Full-time Intern as Back End Developer

OCT 2024 - MAY 2026

Horizon View — Mumbai, India

- Built and maintained Velocity ERP serving 2000+ students and 20+ teachers while managing data integrity and database logic in Firestore.
- Engineered role-based authentication, state management, and error handling solutions to streamline system debugging and resolution.
- Executed backend API testing and integration using Postman, Next.js, and Firebase to ensure stable application functionality.

## KEY PROJECTS

### LookBack

2025 - 2026

AI-Powered Smart Glasses for Evidence Management | **Tech Stack:** React Native, Firebase, ESP32-CAM, Blockchain (SHA-256), AI APIs

- Engineered cross-platform mobile application using React Native integrated with Firebase backend for real-time video streaming and image capture.
- Implemented SHA-256 blockchain verification to test and validate evidence data integrity and secure storage.

### Casca

2025

Full Stack E-Commerce Platform | **Tech Stack:** Next.js, Node.js, Vercel, Pollinations AI, FastBots API

- Architected e-commerce platform integrating Pollinations AI and FastBots API, verifying responsive UI components and REST API response reliability.
- Deployed and maintained production web application on Vercel with structured error handling and API monitoring.

### HeadGuard

Colloquium '25

IoT Innovation Project | **Tech Stack:** MAX30102, GPS NEO-6M, MPU6050, RF Module, Web UI

- Designed worker safety monitoring system integrating hardware sensors with a real-time web UI interface.
- Tested long-range low-power RF transmission up to 1 km, securing 2nd place at IoT Innovation Competition (Colloquium'25).

## EDUCATION

### St. Francis Institute of Technology

NOV 2022 - MAY 2026

BE (Bachelor of Engineering) in Information Technology (GPA: 7.38/10)

### Narayana Junior College

JUN 2020 - JUN 2022

HSC Board, Majoring in Science (Percentage: 73.17%)

## CERTIFICATIONS

- IELTS Academic** - Overall Band: 7.5/9 (Listening-8.5, Reading-8, Writing-6.5, Speaking-6.5) (AUG 2025)
